

PUBLIC NOTICE

TOWN OF MADBURY

Mosquito Control

The Mosquito Control program begins the week of April 18, 2011 in the Town of Madbury. Crews from Dragon Mosquito Control will be checking swamps, marshes, woodland pools, ditches, storm drains and other shallow, stagnant water for mosquito larvae. When mosquitoes are found, the following insecticides may be used:

VectoBac (Bacillus thuringiensis israelensis)	Agnique MMF (poly-isooctadecyl-hydroxyl)
Natular (spinosad)	Mosquito Larvicide GB-1111 (aliphatic petroleum hydrocarbons)
Altosid (methoprene)	BVA 2 Mosquito Larvicide Oil (highly refined petroleum distillate)

If Eastern Equine Encephalitis or West Nile Virus is found in or near Madbury, then emergency spraying may be conducted using the following products:

Anvil (sumithrin)	Wisdom TC Flowable (bifenthrin)
Zenivex (etofenprox)	Cross Check Plus (bifenthrin)
Permanone (permethrin)	Mavrik Perimeter (tau-fluvalinate)
Flit (permethrin)	Suspend SC (deltamethrin)
Bifen I/T (bifenthrin)	

Emergency spray treatments may be conducted at the following locations:

Moharimet School
Tibbets Park
Demeritt Park
Town Hall & Library

It is not possible to predict if emergency spraying will be necessary. The spray schedule is based upon mosquito surveillance data, disease test results and weather conditions. Further communication will be given if emergency spraying is going to take place.

Residents who do not want their property treated must contact Dragon Mosquito Control in writing at **P.O. Box 46, Stratham, NH 03885**. Be sure to include your name, physical address, phone number, and a description of your property with boundaries. Residents who would like to have their stagnant water checked for mosquitoes can call **964-8400** or email **Info@DragonMosquito.com**. There is no charge for this service. Contact us for more information on spray dates, location, materials used, precautions or other concerns.
